MY ADVENTURES WITH ED ROBERTS: OUTSIDE THE IRON LUNG

Building a Stronger Community Through our Stories

Look closely...Short Sands Beach!

Ed Roberts contracted Polio at the age of fourteen. The disease left him paralyzed from the neck down, forcing him to sleep in an iron lung. He gave up thinking of himself as 'helpless' and taught himself how to 'breathe' outside the iron lung so he could participate in community. Victoria Stoppiello shares their adventures together from Short Sands to the steps of the Capitol!
