3:00 - 4:00  #4 Resilience and the Brain’s Hidden Response to Stress

The brain’s response to stressful environments has powerful impact on learning. We typically focus on stopping behavior. In this workshop, we will look at the brain’s hidden response to stress and provide practical supports.

Shauna Signorini Bio:
Shauna is the parent of two young women, one of whom experiences disability. She knows firsthand how important it is for young people to have the right supports. Besides resilience training, she provides peer support for families all around Oregon. She is a national speaker on mental health and self-care. She enjoys time with her family on Mt. Hood and being in the water.
